

Your complete paper survey resource

The convenience of paper with on-line automation

When using paper is the only practical method of gathering survey or evaluation data, **Survey2Go** provides the convenience of paper with fast on-line automation of results that can be accessed and analyzed to get the maximum benefit from your survey process.

Survey2Go Process Provides Valuable Data Faster

Our on-line tools enable you to easily create and print surveys.

After the surveys have been completed, simply scan the surveys and upload them to the **Survey2Go** site.

In approximately 24 hours, **Survey2Go** will provide you an email link to the survey results. The results to the entire survey, including **write-in** answers, can be viewed. Reports and information analysis tools are available to use in reviewing your survey data.
